

# Disaster Plan Consulting

## **Overview**

Our Disaster Plan Consulting service is designed to help you avoid, plan for, and recover from computer system related disasters. At the basic level, we can review, document and test backup and recovery procedures. For larger organizations, we can guide you through development of an overall disaster recovery plan.

## **Options**

You can choose the scope of service to be provided and the most economical way to purchase it.

## **Pricing**

Disaster Plan Consulting is available at our prevailing time and expense rates. Discounts for large blocks of time or prepaid blocks of time are available. Rates vary depending on the level of consultant required. Contact our sales representative for more information, a proposal, or an estimate ♦

*Helping you  
avoid, plan for  
and recover from  
computer system  
related disasters*
