Overview

Periodic Maintenance provides scheduled maintenance service on selected equipment, once or more a year - including cleaning, checking, and adjusting covered equipment. It also includes installation of modifications mandated by us or the manufacturer to improve reliability, performance or compatibility.

Features and Benefits

- Cleaning, checking, calibrating, verifying operation, and routine maintenance necessary to ensure performance to catalog specifications and improve reliability.
- Installation of modifications mandated by us or the manufacturer to improve reliability, performance or compatibility.
- Instruction on user self-maintenance procedures such as cleaning screens, vacuuming printers, installing ribbons, and using diskette cleaners.
- Periodic Maintenance visits will be scheduled during standard business

hours at your convenience.

- Can reduce downtime, especially on items such as laser printers, where dirt build-up is a problem.

Options

Available during off hours at an additional charge, to minimize inconvenience.

Eligibility

Equipment must be covered by a Maintenance Agreement.

Pricing

- Price depends on the number of units requiring Periodic Maintenance and the number of Periodic Maintenance visits per year.
- Our sales representative can provide you with a price quote.

Limitations

Periodic Maintenance does not include optional upgrades or modifications which improve performance but are not *mandatory* for safety or operational reasons ◆
