

Anti-Spam ✧ Anti-Virus ✧ Content Filter Service

Overview

EMF's Anti-Spam / Anti-Virus / Content Filter service stops spam, viruses and unsavory content from ever reaching your email system, providing you with complete email protection. Save employee time and reduce the risk of legal action from housing questionable images and content in your email system.

Features & Benefits

- 99.7% accuracy in spam detection and quarantine - with web access to blocked email for end user.
- .003% false positive rate meaning 3 out of 100,000 are false positive blocked - and the system is flexible to allow exceptions for an individual, a group, or all users for a particular email source or domain.
- 100% Virus detection and quarantine. The blocked mail's sender and receiver are automatically notified of blocked message.
- 'Mailbagging' for up to 5 days of ALL email in

the event your system goes down - meaning as soon as you come back online we stream all your mail to you so nothing is lost.

- Retention for 7 days of all quarantined mail (options to extend to 14 or 30 days) so you can recover any mail inadvertently deleted or blocked in error.
- Simple to install, use and administer - PLUS reports and statistics available. No software or server to manage and update.
- EMF's help desk support 7x24

How it Works

EMF's Spam/Virus and Content solution is an off site service. All your domain's email will go through a remote server for examination and then be forwarded to your email server, a process that delays mail delivery only seconds. Users can see what mail has been blocked, and request exceptions, all through a web portal. EMF performs all administration and provides any assistance

needed.

Setup is easy, taking only a short while to make some administrative decisions. The service is activated as quickly as your MX record can be moved.

Limitations

This service only works for domain-based email (<yourcompany.com>).

Pricing

Monthly pricing is based on the number of mailboxes plus a one-time setup charge.

Set Up Fee: \$250

Mailboxes	Monthly Charge*
0-50	\$120
51-75	\$160
76-100	\$210

* Assumes one year term.

For post-offices with more than 100 mailboxes, contact EMF's sales department for a quote.

Block Spam and Viruses simply and thoroughly.
